

**Remove soil –  
preserve protection**

# Kreussler solutions for PPE / protective clothing

**Highly efficient products and precisely coordinated washing processes  
for optimal protection with thorough cleaning**

**The challenge:**

Remove soil – preserve protection: After washing the protective and functional properties of PPE/protective clothing must be restored and maintained

**Our solution:**

Special products that can be combined flexibly with precisely coordinated washing and treatment processes in accordance with existing standards and regulations

# Recommended products

## MAIN COMPONENTS FOR WASHING AND EQUIPPING:

### DERVAL RENT

Mild detergent concentrate without optical brighteners or bleach

- VAH-listed (Association for Applied Hygiene) in connection with OTTALIN PERACET
- Dupont Personal Protection
- Nomex® certified
- HuPF (Production and testing description for universal fire protection clothing) certified for fire protection clothing

### HYDROB FC

Water proofing and stain repellency including soil originating from or containing fats and oils (free of PFOA and PFOS)

- Suitable for finishing chemical protective clothing in accordance with DIN 13034 and for post-treatment of fire fighting protective clothing in accordance with EN 469 section 7.5

## OPTIONAL COMPONENTS IN THE EVENT OF HEAVY SOILING AND TO DISINFECT:

### DERVAL PROTECT

Washing power booster with high soil dissolving power for technical textiles made of synthetics and blended fabrics (40 – 60 °C)

- Effective water repellency of polyester fabrics using specific polymer additives

### OTTALIN PERACET

Activated concentrate for oxygen bleaching and/or laundry disinfection

- VAH-listed in connection with Derval RENT

## SPECIAL SOLUTIONS FOR WOOL, SHIRTS OR PROTECTIVE SUITS:

### Lanadol AKTIV

Special cleaning and fibre protection agent for highly sensitive and non-washable textiles

### TREBON PLUS

Disinfectant detergent super concentrate in powder form; for all degrees of water hardness

## ADVANTAGES:

### SAFETY

- Professional processing according to HuPF and PPE standards / regulations
- Protection of high visibility reflective stripes and warning colors
- Disinfection using VAH-listed procedures
- Extremely gentle cleaning protects sensitive membranes

### EFFICIENCY

- Very gentle yet efficient treatment
- Powerful and reliable removal of dirt
- Highly concentrated, highly effective products
- Extremely efficient washing processes that are precisely tailored to the products

### ECONOMY

- Extended service life of high-quality protective clothing
- Highly economical thanks to reconditioning and restoring of the textiles
- Reduced product consumption due to highly efficient procedures
- Complete product portfolio under one provider
